

Class MongoPickDBmodel

Inheritance

↳ System.Object
↳ MongoPickDBmodel

Namespace: Recycle.Models (Recycle.Models.html)

Assembly: Recycle.dll

Syntax

```
public class MongoPickDBmodel : object
```

Fields

RobotID

Declaration

```
public string RobotID
```

Field Value

Type	Description
System.String	

Properties

BottleName

Declaration

```
public string BottleName { get; set; }
```

Property Value

Type	Description
System.String	

Category

Declaration

```
public string Category { get; set; }
```

Property Value

Type	Description
System.String	

Confidence

Declaration

```
public decimal Confidence { get; set; }
```

Property Value

Type	Description
System.Decimal	

Datetimetag

Declaration

```
public long Datetimetag { get; set; }
```

Property Value

Type	Description
System.Int64	

Id

Declaration

```
public string Id { get; set; }
```

Property Value

Type	Description
System.String	

Sink

Declaration

```
public string Sink { get; set; }
```

Property Value

Type	Description
System.String	

Timestamp

Declaration

```
public DateTime Timestamp { get; set; }
```

Property Value

Type	Description
DateTime
